

PENSIONS POLICY INSTITUTE

PPI

Knowledge Sharing Seminars

A guide to the UK Pensions system

About Us

The PPI has established itself as an **authoritative independent commentator** on policy on pensions and retirement provision. The PPI provides research and analysis on the implications of pension reform proposals on state pensions, private pensions and on the interaction between them.

Knowledge Sharing Seminars

The Knowledge Sharing Seminar deliver an overview of the current UK pensions system and an introduction to the policy issues, including the state pension, triple lock, SPa, private pension provision, regulation, tax relief, automatic enrolment, and Freedom & Choice. Each session reflects the current position of, and legislated future changes to, the UK pensions system.

Seminars will accrue 3.5 hours of CPD

Who should attend?

The seminars are intended for people new to the industry or wanting to learn about the UK pensions policy framework, or to keep up to date on the changes in legislation.

The seminars form an ideal part of new employees inductions.

To book your place(s), request a bespoke seminar, or if you want more information, please email:
