

**MAKE A  
DIFFERENCE**

We are an independent, educational research **charity** with a charitable objective to inform the policy debate on pensions and retirement income provision. Our aim is to improve information and understanding about pensions and retirement provision through research and analysis, discussion and publication. We do not lobby for any particular issue or reform solution but work to make the pensions and retirement policy debate better informed.

**As a registered charity much of our policy informing activity is funded through the support of our members, individual donations and research sponsorship. Without this vital support we would not be able to continue to produce unbiased, factual research.**
