

Support the PPI

Pensions Policy Institute

PPI

We are an educational research Institute devoted to improving retirement outcomes.

We do this by being at the forefront of informing those responsible for policy making and shaping policy debate around pensions and later life by providing evidence based research from a long-term prospective.

Associate Supporter

In recognition of the diverse nature of the industry, in 2017 we introduced a new Supporters category which is typically suited to:

- Smaller DB or DC Schemes
- Local Government Authorities
- Independent Governance Committees
- Self Employed & Small Businesses
- Independent Trustees

All of our Supporters contribute to the development of the PPI

Our work facilitates informed decision making by showing the likely outcomes of current policy and illuminating the trade-offs implicit in any new policy initiative.

We are completely **INDEPENDENT**.

We do not lobby for one particular cause or outcome. We are unbiased – we are not affiliated to any political party. We have no shareholders to satisfy. Our work delivers rigorous, impartial research and has done for over 20 years.

Reasons to support the PPI

Pensions Policy Institute

PPI

As a registered charity, we rely upon contributions from our Supporters and donations from both individuals and organisations.

Simply put without our Supporters we would not exist!

There are many reasons why organisations choose to support the PPI, and each relationship is **unique**.

- 1 For some it is as simple as commitment to their organisation's **Corporate Social Responsibility** and by supporting the PPI they show this commitment by supporting the development of better policies for all.
- 2 Other organisations wish to **lobby for change** and our **INDEPENDENT** research allows them to add strength to their approach by utilising neutral evidence based research.
- 3 Others simply use us a **resource for information**, after over 20 years of conducting and publishing research, we have a considerable body of material and knowledge across the pensions and later life landscape. Many of our Supporters use us as a library.
- 4 A small percentage of PPI Supporters utilise their membership purely for training purposes, to ensure all new staff attend our Knowledge Sharing Seminars and their teams attend PPI events as part of their **Continual Professional Development**.
- 5 We are all aware of the significant benefits of **networking** and **profile raising**. PPI events are open exclusively to Supporters of the Institute. Event attendees are representatives from across industry, the Regulator, DWP, Government, providers, schemes, consultants, charities and Master trusts. The networking opportunities are exceptional, allowing all attendees to raise their individual and company profile within the industry and to share perspectives and thoughts on policy issues, therefore contributing very visibly to any debate.

The also provide an opportunity to strengthen existing relationships as well as forging new professional relationships.

Supporters Benefits

Annual donation £880

- **Discussion event** the PPI will hold one dedicated research discussion event per year specifically for Supporters and their guests
- **Supporters newsletter** sharing relevant information about the PPI and our activities throughout the year
- **PPI launch events** at least one invitation to a PPI research launch event per year
- **Networking opportunities** with a wide cross-section of the industry through attending events
- **PPI AGM** one invitation to the PPI Annual General Meeting
- **Knowledge Sharing Seminars** discounted places for all attendees within the organisation
- **PPI Research schedule** opportunity to input into the PPI's research schedule and sponsor research
